Kenny Andries

Senior System Engineer & IT Consultant

Belgium

> **About**

5+ years building and securing hybrid IT environments at enterprise scale. Currently managing 30,000+ devices at Belgian National Railways and consulting on device management and cloud infrastructure projects. I believe good infrastructure should be automated, reproducible, and built with security as a foundation, not an afterthought.

For detailed project writeups and technical deep-dives, visit **kennyandries.com**.

> **Experience**

System Engineer

Rathix Consulting

Jan 2026 – Present // Belgium

IT consulting focused on enterprise device management and cloud infrastructure. Helping organizations design and implement scalable MDM solutions, Microsoft 365 environments, and automation workflows.

- Specializing in Android Enterprise, Samsung Knox, Intune deployments, and hybrid cloud infrastructure
- Designing scalable device management architectures for enterprise clients

System Engineer

Ypto (NMBS/SNCB)

Jan 2023 – Present // Brussels, Belgium

Managing enterprise mobility infrastructure for 30,000+ devices across Android, iOS, and Windows platforms for mission-critical rail operations.

- Architecting MDM solutions with Microsoft Intune, Samsung Knox Suite (KSP, E-FOTA, KAI), and SureMDM
- Deploying zero-touch provisioning across COSU, COBO, COPE, and MAM enrollment models
- Administering M365 cloud services: Exchange Online/Hybrid, Entra ID, Azure Security, Conditional Access
- Implementing security baselines aligned with NIS2 and ISO 27001 requirements
- Automating deployment and configuration with PowerShell, Graph API, and custom scripting

System Administrator

Sep 2020 – Jan 2023 // Brussels, Belgium

- Supported Active Directory, Office 365, SCCM, and Windows device management
- Provided 2nd line technical support for critical business systems
- Automated routine administrative tasks using PowerShell scripting

Support Engineer

Jan 2020 – Sep 2020 // Brussels, Belgium

- Delivered 1st line technical support for Windows, Office 365, and Active Directory
- Managed incident tickets through ServiceNow with proper escalation procedures

Digital Marketing Advisor

Google

Sep 2019 – Jan 2020 // Lisbon, Portugal

- Advised B2B customers on Google Ads campaign optimization and digital marketing strategy
- Analyzed campaign metrics and provided data-driven recommendations to improve ROI
